

UNIVANTS of Healthcare Excellence Award

The UNIVANTS of Healthcare Excellence award recognizes interdisciplinary care teams around the world who have achieved measurable, innovative impact within the healthcare system. The program's greater mission is to inspire continued solutions within healthcare that will positively affect patients, clinicians, payors and health systems globally.

The Association for Diagnostics & Laboratory Medicine's (formerly AACC) partners in this program include Abbott, International Federation of Clinical Chemistry and Laboratory Medicine (IFCC), European Healthcare Management Association (EHMA), Modern Healthcare, Healthcare Information Management and Systems Society (HIMSS), National Association for Healthcare Quality (NAHQ) and the Institute for Health Economics (IHE).

Highlights from the program and more information on the recognized teams from 2021 can be found in the July 2022, September 2022, and November 2022 special supplements of Clinical Laboratory News. 2023 Supplements will be coming soon!

2022 WINNERS

Global Winners

- Improving the Peri-Operative Pathway of People with Diabetes Undergoing Elective Surgery: The IP3D Project
Ipswich Hospital, East Suffolk and North Essex NHS Foundation Trust
- Program ROSE (Removing Obstacles to cervical Screening) - Empowering Women to Eliminate Cervical Cancer
ROSE Foundation
- The "Bubble": Safe and Informed Population Health Management Based on Strategic, Novel Laboratory Testing to Restart a Global Sports League, Stimulate the Economy and Foster Normalcy During the COVID-19 Pandemic
National Basketball Association

Recognition of Distinction

- Enhanced Resource Utilization, Reduced Waste, and Expedited Transplantation through Real-Time Donor Screening for Infectious Disease
Mid America Transplant, St. Louis, Missouri
- Early Diagnosis of Maternal cytomegalovirus for Improved Management and Reduced Risk of Fetal Transmission and Complications
National Reference Center for Herpesvirus, University Hospital Center
- Getting to Zero Harm in Controlled Substance Prescribing: Increasing the Accuracy of Prescription Compliance Monitoring through Enhanced Drug Testing Support
University Hospitals Cleveland

Recognition of Achievement

- A Noninvasive Serological Model Using an Intelligent Informatic Solution to Enhance Clinical Decision-Making and Improve Patient Safety
The Second Norman Bethune Hospital of Jilin University
- Improved and Accelerated Diagnostic Pathway for Patients that Present to the Emergency Department with Suspected Mild Traumatic Brain Injury
- Early Detection of Unsuspected Cardiovascular Risk in Asymptomatic Blood Donors
Hospital Universitario Virgen de las Nieves
- Improving Emergency Department Flow and Decreasing Risk Through Development and Implementation of Molecular Diagnostics Guided Triage
Clinical Hospital Center Rijeka
- Enhancing Resource Utilization and Improving Patient Experience Through Strategic Laboratory Stewardship
Ain-Shams University - Emergency Hospital
- Enhanced Staff Satisfaction and Resource Utilization During the COVID-19 Pandemic
Associacao Fundo de Incentivo a Pesquisa - AFIP
