Implementation  
Associate

**Ryn Seidewitz**

Senior Implementation  
Consultant

---

# Protocols for Today

- ✓ Using demo environments
- ✓ Customer-specific questions may warrant a follow-on discussion
- ✓ Parking lot for any follow-ups needed outside of this session and feature requests
- ✓ Submit questions via Zoom Q&A or use Raise Hand and you will be unmuted
- ✓ Recording & slide deck will be shared afterwards

---

# Today's Format

1. Capability Showcase by Vodori - 15 mins
2. Pre-submitted Topics - 15 mins
3. Open Q&A - 15 mins
4. Looking Ahead - 5 mins

---

# Video Review Capabilities

# Managing Video Content: Best Practice Recommendations

- The following formats work best in Pepper Flow's video player:
  - AAC or MP3 audio codec
  - H.264 video codec
  - MP4 video container
- Resolutions of 1080p or less are ideal for both compatibility and performance
- Use video files that are 2GB or less
- Click on annotations from the right side panel to see comments made on specific time stamps
- Full-screen mode allows you to view the video in a larger format
- Use the controls to fast-forward or rewind in 15-second intervals
- Adjust the playback rate to watch the video at a faster or slower speed

---

# Pre-submitted Topics

1. Delegation
2. Viewing resolved comments
3. Providing vote rationale

---

# Open Q&A

---

# Looking Ahead

- Recording & slides will be shared after this call
- You can view all previous office hours [here](#) on our Help Center
- Next office hours session: **April 18 @ 3:00pm CST**

# Thank you
